

*Application No.: 10/625,916*

REMARKS/ARGUMENTS

The above-specified changes to the Specification were made to correct a typographical error in the originally-filed Specification. The Applicants consulted with the office of Patent Legal Administration on December 4, 2003, who informed Applicants that no Petition was required since the originally filed specification contained the correct serial numbers and dates of the related applications.

Respectfully submitted,

SHERIDAN ROSS P.C.
